Risk assessment on ash tree on Village Green. Some tree work is necessary along with an aerial inspection followed by an annual inspection of the tree and pruning of a holly to allow access to view the lower western side of the main stem. A suitable inspection of the suggested areas of concern is to be arranged before tree surgery commences.

Risk assessment on the Parish Seats. An inspection has been carried out on the seats. The majority require remedial work but the one on the corner of Woodgate Lane and the main road is beyond economical repair and should be replaced. Councillors will consider a recycled plastic seat and the Clerk will forward three suitable suppliers for consideration. C.
